

A Complete Portfolio for All of Your RTLS Needs

AiRISTA designs its own tags to provide end-to-end control of the RTLS solution. With over the air control of the firmware, updates can be made to accommodate a range of customer use cases and situations. With support for the latest Wi-Fi and BLE technology, your investment in AiRISTA's RTLS platform is assured.

Benefits

- Over the air programmable
- User programmable buttons
- LED, audible alerting
- Motion sensing
